One and Two Family Dwelling Building Permit Application Submittal Checklist

- Complete Building Permit Application (All portions completed)
- Proof of insurance coverage (Worker's Compensation, Liability, and N.Y.S. Disability)
- Site plans or instrument survey showing the location of proposed structure including grading, setbacks, elevations, driveways, septic system, and easements.
 - If a septic system is proposed, a site plan bearing the seal and signature of a N.Y.S. Licensed Professional Engineer is required.
- Proof of compliance with N.Y.S. Energy Conservation Construction Code
- Rescheck reports must include the following information:
 - Seal and signature of a N.Y.S. Licensed Professional Engineer/Architect
 - Project location (subdivision lot number or street address)
 - Correct code and county used for rescheck
 - Rescheck inspection checklist
- Proof of ownership if title of the property has recently transferred, or a letter of consent from the property owner of record authorizing you to obtain a building permit on behalf of the owner. The property also needs to be clear of violations.
- Two sets of completed site/building plans by a Licensed Professional Engineer if over \$10,000 or Licensed Architect if over \$20,000. Plans should have sufficient detail so that the structure could be built strictly from the building plans. As required by N.Y.S. Education Law, plans shall include the seal and signature of a N.Y.S. Licensed Professional Engineer/Architect.
 - Foundation plans must specify the type of foundation wall to be constructed and included compliance details as per N.Y.S. Residential Code Section R404 and applicable tables.
 - Are sufficient details included in the plans showing all proposed construction, dimensions, spans, attachments, locations, etc.?
 - Has a specification sheet been attached detailing items not shown on plans (smoke and carbon monoxide detectors, stair(s), railing(s), and guard details, material types and strength)?
 - Have details on any fire rated assemblies or construction been provided (fire separations)?
- Provide site soil conditions per N.Y.S. Residential Code Table R405.1
- Window data showing egress width, height, clear opening square foot, and total glazed area
- Fireplace, woodstove, gas fireplace and room heater specifications including installation instructions
- Detail of HVAC equipment and specifications
- Stamped engineered truss design drawings
- If a municipal water supply is not available, include a well drillers certificate

- _____ Driveway – Check with the South Bristol Highway Superintendent and/or the State Department of Transportation/County Highway Department for curb cut/culvert requirements. You can reach the South Bristol Highway Superintendent at 585.374.2150 who will be able to assist you with this process and refer you to any other involved highway agencies.
- _____ Bristol Harbour Properties Only – If the proposed construction is to be located within Bristol Harbour, Environmental Committee and Homeowner Association internal approvals may be required.
- _____ Lakeshore/Floodplain Properties – A Floodplain Development Permit Application may be necessary. Contact the Code Enforcement Office.
- _____ Docks, boat stations and boathouses - Setbacks and other conditions apply. Check with Code Enforcement Office.
- _____ Vacant land will need a house number. You will need to speak to the Code Enforcement Officer who will issue you a number.

DESCRIPTION OF WORK: _____

The total square feet of the proposed soil disturbance will be _____ sq. ft.

Soil Disturbance: A specific area as defined in the threshold tables where the natural vegetative cover will be removed. Soil disturbance is inclusive of placing or filling soil on top of the natural vegetative cover.

Please Note:

Applicant must be able to illustrate where the area of disturbance will be on the property. This may be in the form of a survey supplied by the applicant or defining the location on the official town maps. If a permit is required, it shall be prominently displayed at the project site and the applicant shall notify the C.E.O. five (5) days prior to commencing work. If a determination is

made that a permit is not required and subsequent observations by the C.E.O. indicate that a threshold is exceeded, then a Stop Work Order will be issued until the professionally prepare erosion and sediment control plan is in place.

The Applicant should be aware that it is a violation of N.Y.S. Environmental Conservation Law to allow discharge of sediment or other pollutants from a disturbed area to cause a substantial visible contrast to a watercourse. Penalties can reach \$37,500 per day.

FEES AND ACKNOWLEDGEMENT

Fee Schedule:

- 1.) Consultation with the Code Enforcement Officer that results in a determination that a Steep Slope Permit is not required
